

In view of the Covid-19 pandemic, The ISO GROUP is **FULLY SPONSORING** special package for all training conducted by us;

1. **FREE** Gmate Covid-19 Saliva Antigen Rapid Test Kit for every participant

2. **FREE** Hybrid Online Training (as per details below)

The ISO-GROUP is happy to announce the availability of most of our regular in-person training the under Hybrid Training System™ (HTS™) of e-learning program training with theory assessment, for both new and refresher training.

### I.o.T. Hybrid Package as below:

- ✓ Tablet
- ✓ Earphone
- ✓ Charger
- ✓ Internet ready individual sim card
- ✓ Web-enabled internet Zoom theory software application
- ✓ Pre & Post theory test on Learning Management System (LMS) (auto-sorted questionnaire)
- ✓ Helmet with Camera (Real time/Record for delayed assessment)
- ✓ Web-enabled internet router
- ✓ Self-paced Learning Management Software
- ✓ Flexible quick-in, quick-out
- ✓ Convenience: run on pc / handphone / tablet
- ✓ Voice over training
- ✓ Face-to-face training – manual / webinar (optional)
- ✓ Check point quiz at each module
- ✓ Linked in dictionary
- ✓ Multiple languages available
- ✓ Online progress report for management

### 1. Online Theory Class

#### 1.1. Theory Test

- The modules must be completed in the numerical sequence.
- Each module has self-check questions to encourage interaction with the online LMS.
- Post-test for the theory training will be after all modules are completed.

1.2. Recommended learning hours is 7 hours. LMS participants will have the flexibility to take their own break at any time and continue from the slide that they left off. The course must be completed within the stipulated calendar days.

1.3. Immediate same session re-assessment retest is allowed. Should a participant fail, they have to re-sit the theory assessment.

### 2. Assessment using Virtual Reality (VR) Simulator (Optional: subject to set up at client's premises)

#### 2.1. Setup

- The ISO GROUP sets up the simulator before the assessment.
- The ISO GROUP will abide by all your SOPs whilst at your premises. A technical staff from The ISO GROUP will be off site to be on standby for troubleshooting.

## 2.2. Sanitization

- Participants is checked for temperature before they can start the assessment.
- The ISO GROUP proposes for staggered timing for all participants to come in for the assessment to avoid mass crowding in one place.
- Upon each completed assessment, our staff will sanitize all the touched equipment and provide hand sanitizer for participants.

## 2.3. Result

- Result is generated automatically for every participant. The ISO GROUP will send the result summary to the management once all participants completed the Simulator assessment.

2.4. We request for the simulator equipment to be left at your premise until all the participants have completed their simulator assessment.

## 3. Off-Site Practical Assessment

Prerequisite: must complete theory training and assessment before they undergo the practical assessment.

3.1. Participants is checked for temperature before they can start the assessment.

3.2. The cameras and other accessories in practical area are being set before the assessment. Step by step set-up and commissioning guidelines will be provided

3.3. The ISO GROUP provides 1-hour theory refresher class and practical demonstration to the participants before commencement of practical assessment.

3.4. Off-site assessment is conducted real time or via delayed recording, without the presence of our trainer/ assessor which will be based in our training base in the Klang Valley.

3.5. Full certificate generated by The ISO GROUP (c/o In-Source Options Sdn Bhd), will be sent to your company for participants who passed all theory & practical assessments.

We look forward to continuing working with you, to help you and your team safely home in line with our 18 years tagline: **Safe to Work, Safe Back Home.**
